Hard and Fast Racing Finish – FAQs

1. What is VMG?

Answer: VMG is a slick, fast, hard specialty bottom coating.

2. Is VMG compatible with *VC17 and **SR-21?

Answer: Yes. VMG is compatible with VC17 and SR-21.

3. How often does the VMG coating need to be reapplied?

Answer: Under normal conditions VMG can last up to 3 years. Seasonal pressure washings and pre-race scrubbing will reduce longevity.

4. Does removing a boat from the water reduce the effectiveness of VMG?

Answer: No. VMG is effective on vessels that are kept in and out of fresh water.

5. How many coats of VMG need to be applied?

Answer: Two full coats of VMG should be applied with a third coat at the waterline and high-wear areas.

6. What is the difference between VMG and VC17?

Answer: VMG contains no copper so colors stay true.

7. What colors are available in the VMG line?

Answer: Jet Black, Red, Gun Metal Gray, Blue, Bronze.
