**SECTION 1: Identification**

**1.1. Identification**

Product form: Substance  
Substance name: Klear Kote™ Resin  
CAS-No.: 25068-38-6  
Other means of identification: 6128D, 6128 Resin, Epoxy Resin, Klear Kote™, 602 Kit, 603 Kit, KK

**1.2. Recommended use and restrictions on use**

Use of the substance/mixture: Resin: component  
Recommended use: Industrial use  
Restrictions on use: None known

**1.3. Supplier**

**1.4. Emergency telephone number**

Emergency number: CHEMTREC 800-424-9300

**SECTION 2: Hazard(s) identification**

**2.1. Classification of the substance or mixture**

GHS US classification:
- Skin corrosion/irritation Category 2: H315 - Causes skin irritation  
- Serious eye damage/eye irritation Category 2A: H319 - Causes serious eye irritation  
- Skin sensitization, Category 1: H317 - May cause an allergic skin reaction  
- Specific target organ toxicity (single exposure) Category 3: H335 - May cause respiratory irritation  
- Hazardous to the aquatic environment - Chronic Hazard Category 3: H412 - Harmful to aquatic life with long lasting effects

Full text of H statements: see section 16

**2.2. GHS Label elements, including precautionary statements**

**GHS US labeling**

Hazard pictograms (GHS US):

- ![Exclamation Mark]

Signal word (GHS US): Warning

Hazard statements (GHS US):
- H315 - Causes skin irritation  
- H317 - May cause an allergic skin reaction  
- H319 - Causes serious eye irritation  
- H335 - May cause respiratory irritation  
- H412 - Harmful to aquatic life with long lasting effects

Precautionary statements (GHS US):
- P261 - Avoid breathing dust, fume, gas, mist, spray, vapors.  
- P264 - Wash Skin thoroughly after handling.  
- P271 - Use only outdoors or in a well-ventilated area.  
- P272 - Contaminated work clothing must not be allowed out of the workplace  
- P273 - Avoid release to the environment.  
- P280 - Wear eye protection, face protection, protective clothing, protective gloves.  
- P302+P352 - IF ON SKIN: Wash with plenty of soap and water.  
- P304+P340 - IF inhaled: Remove person to fresh air and keep comfortable for breathing  
- P305+P351+P338 - IF in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
Klear Kote™ Resin
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

P312 - Call a POISON CENTER or doctor/physician if you feel unwell
P321 - Specific treatment (see supplemental first aid instruction on this safety data sheet.)
P332+P313 - If skin irritation occurs: Get medical advice/attention.
P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.
P337+P313 - If eye irritation persists: Get medical advice/attention.
P362+P364 - Take off contaminated clothing and wash it before reuse.
P363 - Wash contaminated clothing before reuse.
P403+P233 - Store in a well-ventilated place. Keep container tightly closed.
P405 - Store locked up.
P501 - Dispose of contents/container in accordance with local, regional, national, and/or international regulations.

2.3. Other hazards which do not result in classification
None known

2.4. Unknown acute toxicity (GHS US)
Not applicable

SECTION 3: Composition/Information on ingredients

3.1. Substances
Substance type : Multi-constituent

<table>
<thead>
<tr>
<th>Name</th>
<th>Product identifier</th>
<th>%</th>
<th>GHS US classification</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

*Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non-hazardous, and/or present at amounts below reportable limits.

3.2. Mixtures
Not applicable

SECTION 4: First-aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : If affected, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

First-aid measures after skin contact : Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminating clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

First-aid measures after eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. Do not apply neutralizing agents. Take victim to an ophthalmologist if irritation persists.

First-aid measures after ingestion : Rinse mouth with water. Remove dentures if any. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

4.2. Immediate medical attention and special treatment, if necessary
Treat symptomatically. Contact Poison Center immediately if large quantities have been ingested or inhaled.

SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media
Suitable extinguishing media : Use water spray, foam, dry chemical or carbon dioxide.
Unsuitable extinguishing media : None known.

5.2. Specific hazards arising from the chemical

Fire hazard : In the event of a fire, or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products : Decomposition products may include the following materials: Carbon dioxide, carbon monoxide, halogenated compounds
Klear Kote™ Resin
Safety Data Sheet

5.3. Special protective equipment and precautions for fire-fighters

Firefighting instructions: Cool tanks/drumms with water spray/remove them into safety. Do not move the load if exposed to heat. Take account of environmentally hazardous firefighting water. Use water moderately and if possible collect or contain it. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Protection during firefighting: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full-face-piece operated in positive pressure mode.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Non-emergency personnel: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Emergency responders: If specialised clothing is required to deal with the spillage, Refer to section 8: "Exposure controls/ personal protection" for suitable and unsuitable materials.

Protective equipment: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

6.2. Environmental precautions

Prevent soil and water pollution. Prevent spreading in sewers.

6.3. Methods and material for containment and cleaning up

For containment: Contain released product, pump into suitable containers. Plug the leak, cut off the supply. Dam up the liquid spill.

Methods for cleaning up:
- Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. If water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a license waste disposal contractor.
- Large spill: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant. See section 13 for waste disposal.
- Take up liquid spill into absorbent material. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with a soap solution. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

Other information: Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections

For further information refer to section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Wear appropriate personal protective equipment. See section 8. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Hygiene measures: Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, and food and drink.

Storage area: Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No additional information available

8.2. Appropriate engineering controls

Appropriate engineering controls

Ensure good ventilation of the work station. Ensure that eyewash stations and safety showers are close to the workstation location.

Environmental exposure controls

Avoid release to the environment.

8.3. Individual protection measures/Personal protective equipment

Materials for protective clothing:

**GIVE GOOD RESISTANCE:**

PVA. butyl rubber. ethyl vinyl alcohol laminate. nitrile rubber. neoprene. PVC.

**GIVE POOR RESISTANCE:**

natural rubber. polyethylene

**Hand protection:**

Gloves

**Eye protection:**

Face shield. Safety glasses or goggles required. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical splash goggles.

**Skin and body protection:**

Protective clothing.

**Respiratory protection:**

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicated this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**SECTION 10: Stability and reactivity**

10.1. **Reactivity**  
Stable under normal conditions.

10.2. **Chemical stability**  
Stable under normal conditions.

10.3. **Possibility of hazardous reactions**  
No dangerous reactions known under normal conditions of use. Reacts with considerable heat release with some curing agents.

10.4. **Conditions to avoid**  
Extremes of temperature and direct sunlight.

10.5. **Incompatible materials**  

10.6. **Hazardous decomposition products**  
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 15: Regulatory information

15.1. US Federal regulations

Klear Kote™ Resin (25068-38-6)

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

U.S. – TSCA 12(b) Chemical export notification: None required.
U.S. – TSCA 5(a) 2 Final significant new use rules: Not listed.
U.S. – TSCA 5(a) 2 Proposed significant new use rules: Not listed
U.S. – TSCA 5(e) Substances consent order: Not listed

15.2. International regulations

Klear Kote™ Resin (25068-38-6)

EU-Regulations
No additional information available

International Lists

Klear Kote™ Resin (25068-38-6)

All components are listed or exempted on Japan Inventory
All components are listed or exempted on CSNN (Taiwan Inventory)
All components are listed or exempted on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
All components are listed or exempted on KECI (Korean Existing Chemicals Inventory)
All components are listed or exempted on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
All components are listed or exempted on the AICS (Australian Inventory of Chemical Substances)
All components are listed or exempted on the NZIoC (New Zealand Inventory)
All components are listed or exempted on the Canadian DSL (Domestic Substances List)

15.3. US State regulations

WARNING:
This product contains less than 0.1% of a chemical known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Oxirane 2-(phenoxy)methyl

| U.S. - California - Proposition 65 - Carcinogens List | Yes |
| U.S. - California - Proposition 65 - Developmental Toxicity | No |
| U.S. - California - Proposition 65 - Reproductive Toxicity - Female | No |
| U.S. - California - Proposition 65 - Reproductive Toxicity - Male | No |
| No significant risk level (NSRL) | 5 µg/day |
| Maximum allowable dose level (MADL) | None |

### NFPA health hazard

- **1**: Materials that, under emergency conditions, can cause temporary incapacitation or residual injury.
- **2**: Materials that in themselves are normally stable, even under fire conditions.

**Health Rating**

- **2**: Moderate Hazard - Temporary or minor injury may occur

### NFPA fire hazard

- **1**: Materials that must be preheated before ignition can occur.

**Flammability Rating**

- **1**: Slight Hazard - Materials that must be preheated before ignition will occur. Includes liquids, solids and semi solids having a flash point above 200 F. (Class III B)

### NFPA reactivity

- **0**: Material that in themselves are normally stable, even under fire conditions.

**Physical Reactivity Rating**

- **0**: Minimal Hazard - Materials that are normally stable, even under fire conditions, and will NOT react with water, polymerize, decompose, condense, or self-react. Non-Explosives.

Klear Kote™ Hardener Safety Data Sheet

P273 - Avoid release to the environment.
P280 - Wear eye protection, face protection, protective gloves.
P301+P312 - If swallowed: Call a POISON CENTER or doctor/physician if you feel unwell
P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting
P302+P352 - IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
P304+P340 - IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
P305+P335+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting
P302+P352 - IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
P304+P340 - IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
P305+P335+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Call a physician immediately.
P308+P313 - If exposed or concerned: Get medical advice/attention.
P310 - Immediately call a POISON CENTER or doctor/physician.
P312+P330 - Get medical advice/attention if you feel unwell.
P330 - Rinse mouth.
P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.
P363 - Wash contaminated clothing before reuse
P405 - Store locked up.
P501 - Dispose of contents/container according to local, state, national and international regulations.

2.3. Other hazards which do not result in classification

None known

2.4. Unknown acute toxicity (GHS US)

Not applicable

SECTION 3: Composition/Information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Full text of hazard classes and H-statements: see section 16

SECTION 4: First-aid measures

4.1. Description of first aid measures

First-aid measures general: IF exposed or concerned: Get medical advice/attention. Call a poison center/doctor/physician if you feel unwell. Get medical advice/attention if you feel unwell. Call a physician immediately.

First-aid measures after inhalation: Remove person to fresh air and keep comfortable for breathing.

First-aid measures after skin contact: Rinse skin with water/shower. Wash skin with plenty of water. Take off contaminated clothing. Remove/Take off immediately all contaminated clothing. Call a physician immediately. If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention.

First-aid measures after eye contact: Rinse eyes with water as a precaution. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Call a physician immediately.

First-aid measures after ingestion: Rinse mouth. Call a poison center/doctor/physician if you feel unwell. Do not induce vomiting. Call a physician immediately.
4.2. Most important symptoms and effects (acute and delayed)
Symptoms/effects after skin contact: Burns. May cause an allergic skin reaction.
Symptoms/effects after eye contact: Serious damage to eyes.
Symptoms/effects after ingestion: Burns.

4.3. Immediate medical attention and special treatment, if necessary
Treat symptomatically.

SECTION 5: Fire-fighting measures
5.1. Suitable (and unsuitable) extinguishing media

5.2. Specific hazards arising from the chemical
Fire and Explosion Hazards: During fire, smoke may contain the original materials in addition to combustion products of varying composition which may be toxic and/or irritating.

5.3. Special protective equipment and precautions for fire-fighters
Protection during firefighting: Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: Accidental release measures
6.1. Personal precautions, protective equipment and emergency procedures
6.1.1. For non-emergency personnel

6.1.2. For emergency responders
Protective equipment: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

6.2. Environmental precautions
Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
For containment: Collect spillage.
Methods for cleaning up: Stop leak without additional risk. Isolate area. Take up liquid spill into absorbent material, and collect in a suitable, closed container. Warm, soapy water may be used to clean residual. Notify authorities if product enters sewers or public waters.

Other information: Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections
For further information refer to section 13.

SECTION 7: Handling and storage
7.1. Precautions for safe handling
Precautions for safe handling: Ensure good ventilation of the work station. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear personal protective equipment. Do not breathe dust/fume/gas/mist/vapors/spray. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid contact with skin and eyes.

Hygiene measures: Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a cool, dry place away from high temperatures and moisture. Keep container tightly closed. Store in a secure location with restricted access or store locked up. Store in a well-ventilated place. Keep cool.

SECTION 8: Exposure controls/personal protection
8.1. Control parameters
1-Piperazineethanamine (140-31-8): Not applicable
Polyoxypropylenediamine (9046-10-0)
Not applicable

Nonylphenol (84852-15-3)
Not applicable

8.2. Appropriate engineering controls

Appropriate engineering controls: Ensure good ventilation of the work station. Access to safety shower and emergency eye wash.

Environmental exposure controls: Avoid release to the environment.

8.3. Individual protection measures/Personal protective equipment

Hand protection:
Liquid-proof, chemical resistant gloves (nitrile, neoprene, butyl rubber or natural rubber) and full body-covering clothing.

Eye protection:
Chemical splash-proof goggles or face shield.

Skin and body protection:
Wear suitable protective clothing

Respiratory protection:
Wear respiratory protection.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Colorless
There may be no odor warning properties, odor is subjective and inadequate to warn of overexposure.
Mixture contains one or more component(s) which have the following odor:
Ammonia like

Odor threshold: No data available
pH: No data available
Melting point: Not applicable
Freezing point: No data available
Boiling point: >450 °F
Flash point: >260 °F
Relative evaporation rate (butyl acetate=1): No data available
Flammability (solid, gas): Not applicable.
Vapor pressure: <1 mmHg
Relative vapor density at 20 °C: No data available
Relative density: No data available
Specific gravity / density: >0.95
Solubility: No data available
Log Pow: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosion limits: No data available
Explosive properties: No data available
Oxidizing properties: No data available

9.2. Other information

No additional information available
# Klear Kote™ Hardener

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

#### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

#### 10.5. Incompatible materials

No additional information available.

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Very toxic fumes and gases when burned or otherwise heated to decomposition. Decomposition products may include, but not limited: oxides of carbon, oxides of nitrogen, volatile amines, ammonia.

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Aspiration hazard: Not classified.

Viscosity, kinematic: No data available.

Symptoms/effects after skin contact: Burns. May cause an allergic skin reaction.

Symptoms/effects after eye contact: Serious damage to eyes.

Symptoms/effects after ingestion: Burns.
# SECTION 12: Ecological information

## 12.1. Toxicity

Ecology - general: Before neutralisation, the product may represent a danger to aquatic organisms. Very toxic to aquatic life. Harmful to aquatic life with long lasting effects.

1. **Piperazineethanamine (140-31-8)**
   - \( LC_{50} \) fish 1: 2190 mg/l (96 h, Pimephales promelas, Static system, Fresh water, Experimental value)
   - \( EC_{50} \) Daphnia 1: 58 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Experimental value, GLP)
   - \( ErC_{50} \) (algae): > 1000 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Fresh water, Experimental value, GLP)

2. **Nonylphenol (84852-15-3)**
   - \( LC_{50} \) fish 1: 0.08 mg/l (ASTM E729-96, 96 h, Hybopsis monacha, Static system, Fresh water, Experimental value, Nominal concentration)
   - \( EC_{50} \) Daphnia 1: 0.084 mg/l (ASTM E729-88, 48 h, Daphnia magna, Semi-static system, Fresh water, Experimental value)

## 12.2. Persistence and degradability

1. **Piperazineethanamine (140-31-8)**
   - Persistence and degradability: Not readily biodegradable in water.
   - Chemical oxygen demand (COD): 0.56 g O₂/g substance

2. **Polyoxypropylenediamine (9046-10-0)**
   - Persistence and degradability: Not readily biodegradable in water.

3. **Nonylphenol (84852-15-3)**
   - Persistence and degradability: Biodegradability in soil: no data available. Readily biodegradable in water.

## 12.3. Bioaccumulative potential

1. **Piperazineethanamine (140-31-8)**
   - \( BCF \) fish 1: 0.3 - 6.3 (OECD 305: Bioconcentration: Flow-Through Fish Test, 6 week(s), Cyprinus carpio, Flow-through system, Fresh water, Read-across)
   - Log Pow: -1.48 (Experimental value, OECD 107: Partition Coefficient (n-octanol/water): Shake Flask Method, 20 °C)

2. **Polyoxypropylenediamine (9046-10-0)**
   - Bioaccumulative potential: Not bioaccumulative.

## 12.4. Mobility in soil

1. **Piperazineethanamine (140-31-8)**
   - Log Koc: 4.57 (log Koc, Read-across, GLP)

2. **Nonylphenol (84852-15-3)**
   - Log Koc: 4.35 - 5.69 (log Koc, Other, Experimental value, GLP)

## 12.5. Other adverse effects

No additional information available
Klear Kote™ Hardener
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 13: Disposal considerations

13.1. Disposal methods

Waste treatment methods : Dispose of contents/container in accordance with licensed collector’s sorting instructions.

SECTION 14: Transport information

Department of Transportation (DOT)
In accordance with DOT

Transport document description : UN1760 Corrosive liquids, n.o.s. (Nonylphenol, Polyoxypolyenediamine), 8, III
UN-No. (DOT) : UN1760
Proper Shipping Name (DOT) : Corrosive liquids, n.o.s. (Nonylphenol, Polyoxypolyenediamine)
Class (DOT) : 8 - Class 8 - Corrosive material 49 CFR 173.136
Packing group (DOT) : III - Minor Danger
Hazard labels (DOT) : 8 - Corrosive

Dangerous for the environment : Yes
Marine pollutant : Yes

DOT Packaging Non Bulk (49 CFR 173.xxx) : 203
DOT Packaging Bulk (49 CFR 173.xxx) : 241
DOT Symbols : G - Identifies PSN requiring a technical name
DOT Special Provisions (49 CFR 172.102) : IB3 - Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2); Composite (31HZ1 and 31HA2, 31HB2, 31HN2, 31HD2 and 31HH2). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 C (1.1 bar at 122 F), or 130 kPa at 55 C (1.3 bar at 131 F) are authorized, except for UN2672 (also see Special Provision IP8 in Table 2 for UN2672).
T7 - 4 178.274(d)(2) Normal............... 178.275(d)(3)
TP1 - The maximum degree of filling must not exceed the degree of filling determined by the following: Degree of filling = 97 / 1 + a (tr - tf) Where: tr is the maximum mean bulk temperature during transport, and tf is the temperature in degrees celsius of the liquid during filling.
TP28 - A portable tank having a minimum test pressure of 2.65 bar (265 kPa) may be used provided the calculated test pressure is 2.65 bar or less based on the MAWP of the hazardous material, as defined in 178.275 of this subchapter, where the test pressure is 1.5 times the MAWP.

DOT Packaging Exceptions (49 CFR 173.xxx) : 154
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27) : 5 L
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75) : 60 L
DOT Vessel Stowage Location : A - The material may be stowed “on deck” or “under deck” on a cargo vessel and on a passenger vessel.
DOT Vessel Stowage Other : 40 - Stow “clear of living quarters”
Other information : No supplementary information available.

Transportation of Dangerous Goods

Transport by sea

Transport document description (IMDG) : UN 1760 CORROSIVE LIQUID, N.O.S., 8, III
UN-No. (IMDG) : 1760
Proper Shipping Name (IMDG) : CORROSIVE LIQUID, N.O.S.
Klear Kote™ Hardener
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Class (IMDG) : 8 - Corrosive substances
Packing group (IMDG) : III - substances presenting low danger
Limited quantities (IMDG) : 5 L
Marine pollutant : Yes

Air transport
Transport document description (IATA) : UN 1760 Corrosive liquid, n.o.s., 8, III
UN-No. (IATA) : 1760
Proper Shipping Name (IATA) : Corrosive liquid, n.o.s.
Class (IATA) : 8 - Corrosives
Packing group (IATA) : III - Minor Danger

**NFPA health hazard**

- 3 - Materials that, under emergency conditions, can cause serious or permanent injury.

**NFPA fire hazard**

- 1 - Materials that must be preheated before ignition can occur.

**NFPA reactivity**

- 0 - Material that in themselves are normally stable, even under fire conditions.

**Hazard Rating**

- **Health**: 3 Serious Hazard - Major injury likely unless prompt action is taken and medical treatment is given
- **Flammability**: 1 Slight Hazard - Materials that must be preheated before ignition will occur. Includes liquids, solids and semi solids having a flash point above 200 F. (Class III B)
- **Physical**: 0 Minimal Hazard - Materials that are normally stable, even under fire conditions, and will NOT react with water, polymerize, decompose, condense, or self-react. Non-Explosives.
